Software Engineer

Highly motivated and passionate Software Engineer seeking to expand my skill set and make a meaningful impact in the ever-evolving world of technology. Articulate communicator with excellent interpersonal skills, able to cultivate powerful client relationships, work collaboratively, work independently, and in high-pressure situations.

▲ TECHNICAL SKILLS

Front - End (JavaScript, HTML, CSS, React, Redux) | Back - End (Python, Flask, Java, SQLite, MySQL, SQLAlchemy, PostgreSQL) | Operating Systems (Windows, Linux) | Applications (Jira, G Suite, Trello, Notion) | Microsoft Office (Word, Excel, PowerPoint, Outlook)

▲ TECHNICAL PROJECT

BEERS CHEERS, JavaScript, HTML, CSS

[Github Repo](#)

- Web application allows users to search for breweries in all cities within the United States of America. Once the brewery option is confirmed, users will be able to get the name, address, and website; should that information be available. If there are no breweries there will be a prompt, "Sorry, no breweries in that city!" Application was built using JavaScript, HTML, and CSS.

BLOGGIN BLOG, JavaScript, React, CSS

[Github Repo](#)

- Single page application allows users to create and delete a blog. Application was built using create-react-app, JavaScript, and CSS.

TRANSXCEED, Python, SQLAlchemy, SQLite

[Github Repo](#)

- This CLI application utilizes an SQLAlchemy database to store records, making it easier for users to view, edit, and delete investments and transactions. External library "Faker" was used to fake data.

▲ PROFESSIONAL EXPERIENCE

Software Engineer (volunteer) | **Mentor Me Collective**, *New York, NY*

April 2023 - Present

- Utilize strong coding skills in JavaScript and React to design and develop innovative software solutions.
- Collaborate with a high-performing team of six members to consistently deliver clean and testable code for a dynamic website with the team.
- Provide robust solutions to production and offered ongoing support, showcasing leadership abilities, problem-solving skills, and exceptional planning and execution skills.
- Maintain an eagerness to learn by proactively staying up-to-date with the latest technologies, continuously enhancing technical capabilities.
- Achieve recognition for outstanding performance by being selected as one of the top four candidates out of a pool of 720 applicants.
- Consistently improved expertise and achieved exceptional results through adaptability and openness to learning.

Software Engineer (student) | **Flatiron School**, *New York, NY*

September 2022 - Present

- Currently in a self-paced, intensive full stack Software Engineering program, demonstrating a strong commitment to personal growth and professional development.
- Developing multiple projects utilizing programming languages such as JavaScript, React.js, HTML, and CSS.
- Acquired proficiency in backend programming languages, including SQL, Flask, and Python, expanding technical expertise and broadening the scope of programming capabilities.

Healthcare IT | **CSI Companies**, *Jacksonville, FL*

September 2022 - Present

- Support Physician and Clinician.
- Proficiently utilized to view, review Patient's chart, Triage, Admission, Labor & Delivery, Antepartum, Post-partum & Discharge Navigator processes
- Efficiently assist in Personalize Order Sets, Preference List, NoteWriter, Reconcile Medications, chart Completion.
- Excelled in client relationship management, advocating for needs and articulating business value.
- Successfully aided in the documentation of end user using EPIC EMR systems in 8 Go Lives

▲ EDUCATION

Full Stack Software Engineer | **Flatiron School**, *New York, NY*

October 2023

Bachelor of Arts in Political Science | **City University of New York**, *New York, NY*
